CONSULTANTS

WEST
VIRGINIA
CHILD
CARE

A program of River Valley Child Development Services

Healthy Children.

A child care nurse health consultant works with child care providers to promote the health and safety of children in the child care setting. These consultants can provide expert guidance and technical assistance on a wide range of health and safety topics.

Child care nurse health consultants have the training to access all the appropriate resources to assist child care providers in successfully including children with special health and medical needs.

West Virginia currently has a team of child care nurse health consultants who are available to assist child care providers across the state.

Quality Care.

How Can Child Care Nurse Health Consultants Help Me?

- Help providers develop strategies for caring for children with special health and medical needs
- Review health and safety policies for child care providers
- Provide up-to-date information on the latest guidelines, policies and information regarding child health and safety
- Offer support through telephone consultations or on-site visits
- Conduct health and safety trainings for child care providers
- Provide Medication Administration Training
- Provide infection control information
- Provide communicable diseases information
- Review health care plans for children with special health and medical needs
- Provide health and safety education for parents and children
